

# Relief Situations Reach Point of Dire Consequence

## Arrangements Made for Holding Demand Meeting in Edmonton Over Week-End—Clashes Feared Unless Action Taken

With strike trouble looming in western cities, and authorities fearful of clashes between police and unemployed, the unemployment and relief situation has reached a point where dire consequences are expected if the federal government fails to take quick action in coming to the aid of municipalities in distress. Vancouver is embroiled in unemployment strike developments which promise to be serious.

# STARHEMBERG IN COLLOQUY WITH BENITO

## Restoration of Hapsburg in Austria Said to Be Topic

ROME, April 20.—A "cordial colloquy of more than an hour" between Benito Mussolini and Prince Ernst von Starhemberg, European chief exponents of Fascism, Friday seemed to emphasize official approval of Italy's growing sentiment for restoration of the Hapsburg dynasty in Austria.

Von Starhemberg, a hand-some, youthful, blonde, and charming, is a member of the 10,000 strong Fascist "blackshirts" and a staunch monarchist. He is believed to have been in contact with the Austrian government in Rome, and is reported to have been in contact with the Austrian government in Rome, and is reported to have been in contact with the Austrian government in Rome.

# 25 FISHERMEN FEARED LOST

ST. JOHN'S, Nfld., April 20.—Twenty-five fishermen aboard the Newfoundland schooner, *Alston*, long overdue after a voyage to the Banks, were feared lost today.

Shipping men here expressed the conviction the *Alston* and her crew were crushed in the ice off Newfoundland—the same fate which has overtaken the *Alston* and her crew.

# 6 YOUTHS DIE IN JOY RIDE

SALISBURY, Md., April 20.—Six youths, aged from 10 to 16, were killed early today as their automobile crashed into a parked truck at Powellville, nine miles east of here.

# Quebec Suspect Is Taken In U.S.

ST. ALBANS, Vt., April 20.—Kenneth Brown, of Milton, sought by Royal Canadian Mounted Police investigating the slaying of W. K. Baldwin, 78, a stockbroker and former member of the House of Commons, was taken to Powellville, Md., for questioning, police said, in connection with the slaying.

# Air-Taxi Elopers Are Sought By Authorities

ALAMEDA, Calif., April 20.—All Pacific coast airports were watched last night for a young man and woman who vanished under romantic circumstances two days ago in a rented monoplane. Authorities here considered a request for a grand theft warrant against the man.

# Edmonton Bulletin

## Rev. J. Pringle Noted Cleric of Yukon Is Dead

LOWELL, Mass., April 20.—The death, early today, of Rev. John Pringle, United Church minister, severed a link between Canada and the Yukon gold fields and deprived Canada of one of her foremost missionary workers.

Rev. J. Pringle died in a hospital here while he was en route to his home in Sydney, N. S., from Bermuda. He was 82 years of age.

The veteran minister devoted a lifetime to the service of the church. He accepted a new mission assignment in January last in Bermuda. Death came just after this task was fulfilled.

## 4 QUINTS NOW ON SICK LIST

CALANDER, Ont., April 20.—The sick ward at the Dalhousie hospital today held four young patients, two more of the Dionne quintuplets, Annette and Cecile, joining Yvonne and Marie, suffering with slight head colds. Accordingly, Yvonne "took sick" on the ward alone and enjoyed a healthful sleep.

## U.S. ACCUSES FAITH BROKEN

WASHINGTON, April 20.—Germany was accused of bad faith today by the United States in protesting discrimination against United States holders of German passports.

## ADOLF HITLER IS 46 TODAY

BERLIN, April 20.—Chancellor Adolf Hitler, on the eve of his 46th birthday, today, which is a national holiday in the Reich, last night singled out his personal emissary, Joachim von Ribbentrop, for high Nazi honors to mark the occasion.

## Last Survivor Of Pioneer Dead

TORONTO, April 20.—Sephia Beasley Bowman, Spryler, last surviving grandchild of Colonel John Bowman, was the first white settler at the head of Lake Ontario, now 94 years old.

DENVER, April 20.—Eight of the patients in the hospital, who were being treated for gas, were removed tonight.

The patients were removed from the hospital, where they had been treated for gas.

## St. Joseph's Cathedral

St. Joseph's Cathedral, located at 112 St. Joseph Ave., is a fine example of Gothic architecture.

The cathedral was built in 1900 and is one of the most beautiful churches in the city.

# JOINT CANTARU LABOR MEET

## FRANCO RUSS AID PACT IS NOW DELAYED

### "Automatic Aid" Under Aggression Cases Differences

PARIS, April 20.—Soviet Russia's aid for a virtual military alliance with France Friday troubled the Russians who are drafting the Franco-Russian mutual assistance pact.

The initiative of the pact's text had been planned for today. It was leaked in high quarters, however, the Moscow government is reluctant to drop the idea of "automatic aid" in the event other nation becomes involved in war.

Officials here confirmed that the difficulties are mainly "technical" and specific reservations to any promise to help Russia in the event of an attack on France.

The Russian foreign minister, Maxim Litvinov, surprised his foreign office here by leaving Government House for Moscow. He was expected to return to Paris.

Foreign Minister Pierre Laval conferred with Litvinov and the ambassador Potemkin, who may initiate the text of the agreement but is expected to return to Paris.

The general outline of the agreement with Russia was approved by the cabinet and Litvinov is expected to sign the text when he goes to Moscow next week.

## Campaign Who's Who

### Thumblin' Sketches of Candidates in the Provincial General Elections

#### By T. H. WINDROB

Charles Gordon, nominated by the Liberals in Vegreville to be the party standard in the Alberta provincial elections, was the honorary choice of the convention held on November 22. He is a native son of Ontario and was born at Alton, Ont., in 1871. He is now in his 57th year and has a record of public service of an enviable one.

He left his home in the east and came west in 1900, and has lived in Vegreville for the past 15 years. He was educated in the schools of his native town in Ontario.

Mr. Gordon has been long associated with public life in Vegreville and has been a member of the town council for many years. He is well known in the community as a councillor and mayor of the town.

# Science Defeats Wild Nature

## TOXIN MAKES FIERCE BEAST TRAIT VANISH

Chemical Substance Works Marvels in Animal Nature

PHILADELPHIA, April 20.—A little prophecy that the lion and the lamb shall lie down together and a little child lead them is shown to be a scientific possibility at the American Philosophical Society meeting here today.

The chemical substance to tame the animal is available if anyone wants to try it out.

**RAT MOTTERS SQUAB**  
The society was shown motion pictures of a fierce, flesh eating, grown rat lying down with a newborn squab and trying to mother it. The pictures were shown by Dr. Oscar Riddle, of the Carnegie Institution of Washington.

The rat had received an injection of prolactin, a hormone produced by the pituitary glands of human and all mammals, including lions. The rat was an unmated female, nothing but wild instinct, and no experience with mothering anything.

**MAKES MATERIALISM**  
The prolactin induced immediate material instincts, as powerful as it makes the rat's natural appetite for eating young squabs.

Prolactin was discovered three years ago by Dr. Riddle. Previous experiments with this hormone, it acts on all animals in similar fashion.

Its primary function is to cause female mammals to give milk for their young. It has been shown when given to males.

## PASTOR LOSES VOICE PRAYS ON FOR RAIN

CUMYON, Okla., April 20.—Rev. R. L. Wells, who prayed so hard for rain came down with laryngitis, discouraged his flock and lowers from his sick bed Friday—singing as dust clouds lined up.

"We will get rain," the Lord will answer soon.

Seven days ago, Mr. Wells, pastor of the Methodist church, launched his little congregation on a week of prayer for the rain so sorely needed in the Oklahoma Panhandle.

Three separate prayer meetings were held this afternoon in the homes of members to conclude the week of daily prayer.

The fact rain has fallen north and east of the Panhandle since the prayer meetings started failed to shake the faith of the hard-headed minister. Hoarsely and in pain, he insisted:

"We will wait," he says can make a marvelous change in this country."

**Buck Jones Gets \$25,000 Per Fillum**

HOLLYWOOD, April 20.—Buck Jones, cowboy film star, signed a new contract Friday at an increased salary, reported to be more than \$25,000 a picture.

Universal studio executives, with whom he signed, said he appeared on the screen more times than any other player in 1934-35.

## SUCH IS LIFE—By Walt Munson

**Son of Condemned Vermilyea May Become Adopted**

SACRAMENTO, Calif., April 20.—Possibility Harold W. Vermilyea, under sentence to hang in Belleville, Ont., for the axe slaying of his mother, may have a last view from his 14-year-old son is seen here.

Mrs. Velma H. Brewster, assistant probation officer for San Bernardino county, where the boy is held by juvenile authorities, said the Vermilyea family of Belleville has provided funds for the boy's trip there.

Mrs. Brewster said the Canadian wife of Harold W. Vermilyea, who had sought aid of Sacramento authorities to regain custody of her son, said she would not contest any move by the Vermilyea family to adopt him.

ADJOURN HOUSE "UNTIL FALL" CAUCUS RUMOR

Member Redistribution Is Worry Cause To U.F.A. Government

Although the legislature did not adjourn yesterday—observing the morning at least in caucus district—it is rumored that the program for the rest of the session which was drawn up on a new basis of the U.F.A. is understood that one of the things talked of was that the U.F.A. membership be reduced from 80 to 34 and that two members be elected in each constituency.

It is understood that this resolution has been working the government since it appeared on the Order Paper, and much discussion is said to have taken place on it in committee.

Following adjournment of the U.F.A. caucus there were strong rumors that there was much support for the motion in caucus and that in order to give the legislature a whole ampler time to discuss and think over the matter, that the legislature might be adjourned until the autumn.

The rumors went so far as to say that a government member might bring in a motion, advocating adjournment of the house until fall, when the whole matter could be more seriously considered.

Some U.F.A. members have said that the government would not wish to adjourn until fall and that the members as a whole should be to the country in June and "take their medicine."

However it is understood on good authority that the matter was one of the major items discussed in caucus and that Mr. Duggan's motion comes up for discussion there tomorrow.

A clarification of the atmosphere.

**LOW INTEREST RATES**  
Low interest rates will be a large factor in raising the market prices of stocks. All other things being equal, a stock worth 100 when interest rates are 4 1/2 per cent should be worth 125 if the interest rate goes to 3 per cent. You can see the effect of declining interest rates on the stock market even now, and you will see it more when earnings increase and begin to reflect more stable business.

A new crop of hopefuls will spring up. They will be carried away by prospects of further rise. They will push prices beyond any profitable levels. Easy credit will be given to them to act on their hopes. The result will be exaggerated, but it will be a good thing to provide new opportunities for wise persons to sell out. It has always been so in the past. It will occur again.

Government regulations and restraint will temper speculation in stocks but will not prevent it. It will not abolish all periods of fever. It will, but it will not.

**Ask Blood Donors To Save Life**

**Unlucky Lad**  
NEW YORK, April 20.—The parents of Harold Prager, 14, who has already received 65 blood transfusions since last November, had to appeal to the public last night for a dozen more donors.

Harold is in the New York hospital suffering from a combination of osteomyelitis and staphylococcus septicemia, which has already necessitated the amputation of his left leg. Now the infection has spread to the right foot, but Harold's physicians say that he "seems to be handling it fairly well."

"If we can give him strength to hold out for a few further days," the likelihood is that he can pull through."

Harold's father, Gustav W. Prager, an unemployed coal miner, 35, and his mother, Mrs. Prager, 33, and 35 children volunteers have contributed to the fund. The fund has blood of group O, are needed.

The fund in the hands of these institutions is growing rapidly, promising to give further. The death of new blood lines, the low rate on government bonds and various other factors make for a demand for good blood.

**Weak point of the future:** Eventually when business gets going, the buyers and sellers will find new use for their savings, will want to venture more. Then buyers and sellers will begin buying fewer bonds, will sell some of their holdings, and a gradual downturn in the bond market will set in. Such a downturn usually precedes a downturn of the general business trend by about 6 to 18 months.

**Dollar value of bonds vs. purchase power of the dollar:** It is important to remember that the purchasing power of money is not the same as the dollar value of bonds. Bonds are a store of value, but the dollar value of bonds declines during a period of rising commodity prices and rising costs of living. You probably can get as many or more dollars from your bonds in the future as you can now, but you may lose the purchasing power of the money.

**Factors which support bonds:** A third portion of the country's buying power is in the hands of banks. These institutions are required by law to invest largely in bonds—interest paying bonds. And

according to the latest estimates, the amount of indications estimates in May—some good analysts think it may be higher than now. And still higher a year after that. And again a peak sometime in the 1930-41 period.

**How about 200, double the present, over the next four to six years. Perhaps as high as 250.** This is a composite guess, a rough generalization based on many views and expectations.

**LOW INTEREST RATES**  
Low interest rates will be a large factor in raising the market prices of stocks. All other things being equal, a stock worth 100 when interest rates are 4 1/2 per cent should be worth 125 if the interest rate goes to 3 per cent. You can see the effect of declining interest rates on the stock market even now, and you will see it more when earnings increase and begin to reflect more stable business.

A new crop of hopefuls will spring up. They will be carried away by prospects of further rise. They will push prices beyond any profitable levels. Easy credit will be given to them to act on their hopes. The result will be exaggerated, but it will be a good thing to provide new opportunities for wise persons to sell out. It has always been so in the past. It will occur again.

Government regulations and restraint will temper speculation in stocks but will not prevent it. It will not abolish all periods of fever. It will, but it will not.

**Ask Blood Donors To Save Life**

**Unlucky Lad**  
NEW YORK, April 20.—The parents of Harold Prager, 14, who has already received 65 blood transfusions since last November, had to appeal to the public last night for a dozen more donors.

Harold is in the New York hospital suffering from a combination of osteomyelitis and staphylococcus septicemia, which has already necessitated the amputation of his left leg. Now the infection has spread to the right foot, but Harold's physicians say that he "seems to be handling it fairly well."

## BIG PROGRAM PLANNED FOR SCOUTS' HEAD

Mass Rally in Arena Will Be Attended by 2,000 Scouts, Guides

Founder of the great Boy Scout movement and beloved by a world of boys, Lord Baden-Powell of Gilwell, Chief Scout of the world, will arrive in Edmonton next Wednesday afternoon, April 24, at 2:30 p.m., via C.P.R. from Calgary, included in the tour party, which arrived in Vancouver a short time ago after attending the great jamboree in Australia, will be Lady Baden-Powell, Chief Girl Guide, her daughters the Hon. Heather and Hon. Betty Baden-Powell, and Mr. C. D. Wainwright, Imperial Headquarters Commissioner for Rover Scouts and Max G. Walton, The Scoutmaster.

At a huge mass rally to be held in the Arena at the Edmonton exhibition grounds, over 2,000 Boy Scouts and Girl Guides will greet their chiefs. Friday evening, April 26, it is expected that a large number of the public will attend the rally as it will be their best opportunity of seeing the world-famous visitors.

**CITY FORTUNATE**  
Edmonton is fortunate that it has been included in the itinerary of the founder of the movement that has brought under its banner over 2,000,000 of the youth of practically every nation of the world. It is a world of world brotherhood, and recognition of the fact that it is one of the great factors in the Scout movement.

Owing to the fact that the Chief Scout is only "two years of eighty" and only a year of his health, he is a severe illness, great care is being taken of his health. He will therefore be unable to give autographs to the children, but he might as his strength allows.

**OFFICIAL WELCOME**  
The program of the Chief Scout and his party is expected to be as follows:

Thursday, April 25, at 11 a.m. official welcome of the province by the Administrator, Hon. Horace Harvey, Chief Justice of Alberta, and Mr. C. D. Wainwright, Imperial Headquarters Commissioner for Rover Scouts and Max G. Walton, The Scoutmaster.

Friday, April 26, at 11 a.m. official welcome of the province by the Administrator, Hon. Horace Harvey, Chief Justice of Alberta, and Mr. C. D. Wainwright, Imperial Headquarters Commissioner for Rover Scouts and Max G. Walton, The Scoutmaster.

Friday, April 26, at 11 a.m. official welcome of the province by the Administrator, Hon. Horace Harvey, Chief Justice of Alberta, and Mr. C. D. Wainwright, Imperial Headquarters Commissioner for Rover Scouts and Max G. Walton, The Scoutmaster.

## GUARD HOME FROM WEATHER WITH FRESH COAT OF PAINT

MOST of the painting to be done around a house is the doing over of old paint. Judiciously, it is likely to be for covering mottled paint or lacquer. You are tired of the old color. But when the outside of a house needs repainting, it is because the old paint has become hard and brittle. The main purpose of the outside paint is to keep water from reaching the surface beneath, for should this happen there is likely to be splitting, cracking, rotting and staining. Any paint offering resistance to water is waterproof when fresh. The time for repainting is while the first coat of the old paint still has body and is firmly attached to the surface.

With no change in color, two new coats should make a satisfactory job. With old paint, further coats what is left of it should come off, and for a good job, starting from the bare surface, three coats will be needed.

TWO COATS ON OLD PAINT  
Same paint can be used on old paint and then going powdery, becoming chalky, as it is called. When chalking has not gone through to the surface beneath, the old paint

## Stop Dreaming Start Realizing

BUILD YOUR OWN HOME

W. H. CLARK

Lumber Co. Ltd.  
190 St. Edmundo  
Phone: 24165 — 24166

makes an excellent base for new. The chalking is brushed or blown off and the new paint is applied to the first coat that remains. With the new color the same as the old, one coat, thinned with one-half pint raw linseed oil to the gallon, may be sufficient. Two coats, the second used as it is given in the can, certainly should be.

Blistering and peeling in the same places time after time is a sign that water is getting into the surface from the back. Take off loose paint with a scraper, and after finding and closing the leaks, set the bare places a few coats to bring them to the level of the rest before general repainting.

Should paint be blistered, peeling, and cracked, it may be because of low quality, dampness in the surface at the time of painting, or from the application of so many coats under the brush.

In any of these cases, scrape off all of the old paint before repainting, or employ a skilled worker to burn it off with a blowtorch. There are too many chances of fire, for burning to be undertaken by a novice.

THREE COATS ON BARE WOOD  
Starting from the bare wood, three coats are needed for a good job. Paint for the first coat should be thinned with one pint raw linseed oil and one-half pint turpentine to the gallon; for the second coat with one pint of turpentine to the gallon. Paint for the third coat is used as it comes.

When the first coat has hardened, every crack and nail hole should be filled with putty, sifted white lead paste, or thickened scumblings from a paint can. Shortly after the first coat has dried, time for drying should be allowed between coats.

For painting the outside of the house, get the highest quality paint that you can find. Even at high cost it is the cheapest in the end because of the long time that it lasts and the greater intervals between payments for labor. In money, if the job is done professionally or in time and effort if you do it yourself.

But there is more to a good and long-lasting paint job than high quality of the paint. If the house is not properly applied, there will be no better service with high-quality paint than with low.

For one thing, the surface must be properly prepared. It must be clean and dry — especially dry. Painting should not be done for several days after a rain, or when there is dampness in the air, or too early in the morning for the dampness of night to have dried off. Temperature should be not less than 50 degrees; chilled paint dries too slowly to dry properly. A good time for painting is a day that provides these conditions of dry surface, dry air, and proper temperature.

**Baby Marie Has Bad Cold But No Alarm Caused**  
CALLANDER, Ont., April 20.—Mr. and Mrs. Olive Dionne attended Good Friday services at the Little Roman Catholic parish of Corbett yesterday knowing that two of their youngest daughters, Emilia and Marie, were ailing.

The parents, who have often pronounced their wishes to personally raise for their children in place of the present guardians, hoped that soon the babies would be back to normal.

Marie became sick overnight, apparently suffering from a cold similar to that which has troubled Emilia during the last few days. Her temperature was normal again last night but during the day it reached 100 degrees. Dr. Allan Roy Dalton, medical guardian of the famous infant, said there was no cause for alarm but added that there would be no visitors admitted to the hospital for the rest of the month.

Two screens now separate Marie and Emilia from the rest of the quinquets, 10 months and 22 days old. Marie, Annette, Vivienne and Cecile were all enjoying the best of health and took their vendors' air as usual.

**Numbers Racket Claims Life Of Youth in U.S.**  
PHILADELPHIA, April 20.—A 17-year-old boy was found dead and another critically hurt in a bloody section of nearly Delaware county Friday in what police said was a new outbreak of numbers racket.

The dead boy was Nathan Nelson, who Lieutenant Joseph Campisani of the homicide squad, said was connected with the numbers racket. Nearby, police found Larry Schuler, 17, a companion, unconscious from head injuries. Police held for questioning three youths who identified themselves as Anthony Lammone, 21, Ernest Purrocci, 18, and Joseph Lombardi, 22.

## NEW ZEALAND HAS 60,000 JOBLESS

VANCOUVER, April 20.—New Zealand's system of relief camps was watched by Prime Minister G. W. Forbes of the southern dominion in an interview Friday.

Most of the relief workers are engaged in building what he said. Complaints had been heard about a serious nature, although there were a number of vagabonds in them.

Two men are allotted to each bed, with an entire camp housing between 150 and 200 men. Married men may join the single men in camps if they wish.

It is believed the majority of the men would be reabsorbed into industry within a comparatively short time. Within the last year 10,000 have been released from the unemployment list through a rehabilitation scheme and a revival in building and industrial trade.

There are now about 60,000 unemployed in New Zealand. Each working man in New Zealand contributes about 25 cents out of every \$4 earned to an unemployment fund which builds up a year-end fund of \$10,000,000.

Six Boy Scouts attended the first of a series of classes in the care of animals conducted by the Edmonton Humane Society. By the fourth meeting the attendance had grown to seventy.

## POWERS PROTEST TO LITHUANIA

KAUNAS, Lithuania, April 20.—The former Allied powers guarantors of the Status of Memel, yesterday made a diplomatic representation to the Lithuanian government, the nature of which has not been disclosed. It was learned here, Sir John Simon, British foreign secretary, informed the House of Commons several weeks ago that the guarantors powers had protested to Lithuania over its policies in Memel, which gave rise to the belief that Friday's move must be connected with the same matter.

The entire cost may be spread over one year in easy monthly payments. Without obligation we will give you a complete estimate of the cost. Avoid possible delay by placing your application for Gas Service Installation NOW.

## EISTEDDFOD EVENTS GIVEN HARD BATTLE

St. David's Society Sponsors Largely Attended Event on Friday

Attended by close to 100 interested spectators and with a record of about 175 entries, the third annual Eisteddfod of the St. David's Welsh Society was held on Friday at First Baptist church, located for the occasion.

Throughout the afternoon and evening, competitions were conducted and it was past midnight when the audience finally filled from the auditorium, well satisfied with a full agenda of events, closely contested and from which a rich crop of talent was garnered.

An outstanding event was the colorful ceremony surrounding the crowning of the bard, presided over by D. M. Duggan, M.L.A., who presented to L. V. Price, president of the Society. It was received by E. P. Smallwood of this city on behalf of Evan Williams of Blaenau Ffestiniog. The excellent recitation of woodcarving art, the product of John Benbow, of this city.

Rev. C. G. Stone, pastor of First Baptist church, was the chairman at the afternoon session, while Mr. Duggan was chairman at night.

David Jones was adjudicator in music singing with Rhysdall Williams, Lethbridge.

Other adjudicators were: Rhysdall Williams, Lethbridge; and Mrs. H. Evans, Woodville, near Wells. Welsh literature, Owen Hughes, Vancouver; art, E. Hughes, Edmonton; fancy work, Mrs. J. J. Duggan, Miss Bease Hall, Mrs. Gordon McLeod, accountant, Mrs. Ernest Meaden.

The general secretary of the

AIRSTREAM CHRYSLER SIX FOUR-DOOR SEDAN

Benjamin William R. Davies and Bernard Griffith were secretary and committee chairman of the following:

L. E. Price, chairman; Mrs. Meade, Mrs. J. J. Williams, Mrs. L. E. Price, Mrs. John Miller, Mrs. W. J. Jones, W. J. Jones, W. T. Williams, R. Noble, E. E. Davies, J. Jones and R. Williams.

Complete results are as follows:

### CHILDREN'S SECTION

English recitation, children under 12-1, David Jones, 2, Joan Partridge, 3, Tammy Springmoot.

Vocal solo, boys under 12-1, Billy Kellford, 2, Ivor Roberts.

Piano solo, boys under 12-1, Eileen Snellett, 2, June Irving.

English recitation, children under 12-1, Blanche Davis, 2, Winifred Mather and Bessie Arthur, vocal.

Vocal solo, English, Welsh, girls under 12-1, Kathleen Drury, 2, Diana Hughes.

Recitation, English, children under 14 years-1, Veronica Davies, 2, Annie Davies.

Piano solo, children under 16-1, Gertrude Jones, 2, June Irving and Rhys Thomas, equal.

Vocal solo, boys and girls under 18-1, Betty Campbell and Gwyn Williams, 2, Diana Hughes and John Hefford.

Junior church song, winner, Junior United church.

Contralto solo—Marjorie Wellington.

Ladies' choir—Lyric Musical Club, conducted by Mrs. Peter McSparran.

Baritone solo—Frank Stone.

Vocal duet—Frank Stone and C. V. J. Schor.

Best embroidered apron—Miss Myra Jones.

Best patch drawing—1, Kate Hualak, 2, Lovell Gubert.

Knitted sweater—Hilda Davies.

Perch rendering, children under 16-1, Marjorie Oshind, 2, Mavis Smith.

Hand knitted socks—Mrs. William Price.

One act play—Mrs. M. A. Davies.

Poetry—1, R. Jones, 2, E. Davies.

Essay—Mrs. M. A. Davies.

Poetry, four verses on "The Yuletide"—J. R. Jones.

Ladies or girls' hand knitted sweater—Mrs. John Miller.

Best afternoon tea cloth and four napkins—Gwyn Hualak.

New Jersey has found that she can't borrow her way out of debt, so has decided to tax her way out.

## LITVINOFF TELLS NO ONE WHERE HE'S DESTINED

GENEVA, April 20.—Maxim Litvinoff, Soviet foreign commissar, left Geneva Friday for automobile but refused to say where he was going for an unannounced destination.

One report said he was en route to a city in Italy for a meeting with Premier Benito Mussolini in Rome, however, a Soviet embassy spokesman said Litvinoff would not see it there.

The foreign commissar carried off of great correspondence to his destination. He departed smilingly in a touring car, accompanied by several members of the Soviet Union delegation to the League of Nations.

Litvinoff's decision not to go to Paris, where he was expected to sign the pending Franco-Soviet accord, came as a surprise to League officials.

Controversy arose of nervous tension and fatigue, and it is interesting to note that both driver and passenger can make a long trip in a car equipped with the automatic cruising gear, maintain better average speed, yet end the day comparatively as fresh as at the start.

## Nash Cruising Gear Explained

A technique, mounted on steering nose of demonstrating cars, is being successfully used by Nash dealers to show the advantages of the Nash automatic cruising gear in actual operation. For the benefit of the Nash automatic cruising gear, the instrument proves in graphic fashion that the motor actually "floats" at car speeds above 40 miles per hour, and more operating costs increase automatically with car speeds under ordinary conditions, the value of the cruising gear lies in the marked reduction of gasoline and oil consumption and engine wear obtained through its use.

What the automatic cruising gear delivers is a fast cruising speed for which the owner pays no premium," explained the local dealer, Mr. Montague, "in other words, he gets 40 miles per hour performance at the cost of 42 miles per hour operation."

The Nash automatic cruising gear is a self-contained unit operating as part of the transmission and can be used or not, according to the wishes of the driver, who controls it by means of a selector on the dash. To use it, the driver pushes the selector down and then on the cruising gear will automatically become operative at approximately 40 miles per hour.

While it is difficult to make definite statements regarding the increased gasoline mileage obtained through the use of the Nash automatic cruising gear because of variable factors peculiar to individual drivers, factory tests have indicated that as much as five more miles to the gallon can be obtained at 50 miles per hour and oil consumption at this same speed is reduced approximately 40 per cent over the oil consumption in conventional gear.

Owners report they have obtained as high as 22 miles to the gallon on the Nash Automatic Six equipped with the new device, and in a recent economy test conducted by a large oil company over a 100-mile trip, a Nash Automatic Eight averaged the remarkable mileage of 17.6 miles per gallon at top speeds.

While economy and longer engine life are direct results of the use of the cruising gear, another interesting phase concerns the human factor. With a reduction of engine speed at high car speeds there is a consequent increase in smoothness and quietness. None of course, is well established as a

## Deny Report That Wilhelm Is Ill

AMSTERDAM, Netherlands, April 20.—Rumors circulating here last night that Emperor Wilhelm of Germany is seriously ill were denied at Nieuw Oosterschelde, near Dordrecht.

The rumors, which were caused by a report that the emperor had been seen outside the castle for the past few days and had been called there frequently.

Wilhelm, who was seen outside the castle for the past few days and had been called there frequently.

The foreign commissar carried off of great correspondence to his destination. He departed smilingly in a touring car, accompanied by several members of the Soviet Union delegation to the League of Nations.

Litvinoff's decision not to go to Paris, where he was expected to sign the pending Franco-Soviet accord, came as a surprise to League officials.

Controversy arose of nervous tension and fatigue, and it is interesting to note that both driver and passenger can make a long trip in a car equipped with the automatic cruising gear, maintain better average speed, yet end the day comparatively as fresh as at the start.

The Nash automatic cruising gear is a self-contained unit operating as part of the transmission and can be used or not, according to the wishes of the driver, who controls it by means of a selector on the dash. To use it, the driver pushes the selector down and then on the cruising gear will automatically become operative at approximately 40 miles per hour.

## Mercy Flight Of No Avail When Patient Dies

WINNIPEG, April 20.—A flight to Winnipeg from St. James, Minn., 80 miles north of here last night, was a costly and unsuccessful attempt to save the life of a patient.

Robert Johnson, 40, of St. James, Minn., was taken to the hospital in a private ambulance from St. James, Minn., 80 miles north of here last night, was a costly and unsuccessful attempt to save the life of a patient.

The rumors, which were caused by a report that the emperor had been seen outside the castle for the past few days and had been called there frequently.

Wilhelm, who was seen outside the castle for the past few days and had been called there frequently.

The foreign commissar carried off of great correspondence to his destination. He departed smilingly in a touring car, accompanied by several members of the Soviet Union delegation to the League of Nations.

Litvinoff's decision not to go to Paris, where he was expected to sign the pending Franco-Soviet accord, came as a surprise to League officials.

Controversy arose of nervous tension and fatigue, and it is interesting to note that both driver and passenger can make a long trip in a car equipped with the automatic cruising gear, maintain better average speed, yet end the day comparatively as fresh as at the start.

The Nash automatic cruising gear is a self-contained unit operating as part of the transmission and can be used or not, according to the wishes of the driver, who controls it by means of a selector on the dash. To use it, the driver pushes the selector down and then on the cruising gear will automatically become operative at approximately 40 miles per hour.

While it is difficult to make definite statements regarding the increased gasoline mileage obtained through the use of the Nash automatic cruising gear because of variable factors peculiar to individual drivers, factory tests have indicated that as much as five more miles to the gallon can be obtained at 50 miles per hour and oil consumption at this same speed is reduced approximately 40 per cent over the oil consumption in conventional gear.

Owners report they have obtained as high as 22 miles to the gallon on the Nash Automatic Six equipped with the new device, and in a recent economy test conducted by a large oil company over a 100-mile trip, a Nash Automatic Eight averaged the remarkable mileage of 17.6 miles per gallon at top speeds.

While economy and longer engine life are direct results of the use of the cruising gear, another interesting phase concerns the human factor. With a reduction of engine speed at high car speeds there is a consequent increase in smoothness and quietness. None of course, is well established as a

## BEACONS TO FLARE FROM HIGH POINTS

Simple Ceremony Will Attend Scouts' Contribution to Jubilee

To be lit and cared for by Boy Scouts of Alberta is to have a chain of flaming beacons from Coult's in the north to the south. This chain will form part of a great procession of beacons from the Atlantic to the Pacific to mark the Silver Jubilee on May 6.

With the Scouts arranging for beacons on the highest points of land in each district, all Alberta citizens, young and old, will be joining together in a great display of loyalty. In many cases Scout Guides, parents and public will be invited to attend a simple ceremony which will include the lighting of the National Anthem and a brief address on the Second Scout Law, "A Scout is loyal."

So far as possible, ceremonies will be arranged so that the royal salute of 21 rockets starts at 9:30 p.m. and ends with the lighting of the beacons at exactly 9:30 p.m. In Alberta all beacons will be lit with flint and steel or with a fire bow.

Arrangements are being made with local flint clubs to observe the chain of beacons from the southern boundary to the northern point that can be reached, and also to observe the transmission of the chain that links Alberta Scouts with those of other provinces.

Lord Baden-Powell will be in Winnipeg on May 6, and will be in the ceremony there. Scouts will feel that throughout Canada they are joining under their leader in an inspiring expression of pure loyalty to the King and all his lands.

## All Saints' Tuxis Lay Large Plans

Extensive plans for the opening season were laid at a well-attended meeting of the All Saints' Tuxis Society, held Wednesday at the home of Don Carlson.

Days for practice of the softball team were set. The team is powerful, this year and plans to go places. Among other plans are summer camp, rifle and father and son banquet.

After the business meeting, refreshments were served and a social hour was spent, when Don Carlson and the boys enjoyed singing and music. Bill Cuddy applied for membership.

## ALBERTA UNIVERSITY STUDENT DRAMATISTS CONCLUDE SEASON OF OUTSTANDING SUCCESS

MARGARET ALDWINKLE, clever and talented campus actress, who was awarded the best performance recognition by inter-year play judges.

## Quality Of Production Is Improved

During the past year the University of Alberta Dramatic Society maintained play production in pace with former years and succeeded in improving the quality of their presentations. On the latter statement, most students are agreed.

The college dramatists held their annual inter-year play competition, sent a company to Calgary to take part in the yearly provincial competition, and wound up their season by presenting the variety revue, "The Sleeping Clergyman," from the standpoint of excellence of presentation and the important factors of production.

Freshman, sophomore, junior and senior plays were all represented in the inter-year competition, held before Christmas, with the junior play, a mad farce, being adjudged the winner.

Parker Kent, accomplished actor and writer, carried the junior role of Victor, with his handling of the role of Monsieur Soulier.

performance recognition for her part in "Michael," led the cast that represented the campus at Calgary in the provincial competition.

U. OF A. PLAYWRIGHT

They acted "God Made the Country," a piece from the pen of E. J. G. Gowan, another U. of A. graduate playwright. The offering dealt with basic facts of life as it is lived in certain rural parts of Alberta. A. J. performance was somewhat marred by interior lighting and sound effects, but the presentation of the play, in which the principals reached great heights, won commendation from spectators and the judges, Malcolm Martin.

Although "God Made the Country" was unanounced in winning the competition and the right to

## Eskimo Families To Be Moved To Arctic Isles By Government

Transfer Will Insure Canadian Claims, Settle Food Problems

By JAMES MONTAGNES

ANKLAVIK, N.W. April 20.—More Eskimo families this year will be moved to the North Pole and farther north occupation of Canada's Arctic by government officials. The administration of the Northwest Territories has the past few years been experimenting with the northward movement of Eskimo families. And this summer more Eskimos will follow the trend, according to a high official in the government service.

The past few years families of Eskimos from southern Baffin Island, who have been nomadic hunters, have been moved to the north. The government has been experimenting with the northward movement of Eskimo families. And this summer more Eskimos will follow the trend, according to a high official in the government service.

## Spring Play Standout In Year's Work

With problems that might have fated productions, the offering extended from the mid-nineteenth to the fifth decade of the present century and officials in charge of assembling properties combed the city streets in order to obtain appropriate settings for the old-fashioned scenery.

Harper Prowse and Emily Sargeant, who were from Grouse Mountain, were the winners of the year's work.

The play was considered by Edmonton critics to be one of the best ever witnessed.

Directorial honors for the year rest on Noah Young, who staged the winning junior play and later directed the "God Made the Country" cast.

Barney Ringwood headed the 1934-35 dramatic executive that was responsible for all production, George Cayer was in charge of technical details of the Convention Hall stage, and the late Varsity plays produced locally.

## UNIVERSITY LETTER By J. E. Macdonald

enough for the men who could build like the Maurelans. But in these days at least they were dead. They were dead, they were dead, they were dead.

New Jarow is a desolate town. I had seen wonder like it since the war. I saw a dead town, a dead town, a dead town.

Some people have imagined I overdid it a little in my description of Jarow. But I was not. I was not. I was not.

Today the buildings are falling into ruin, the windows are broken, the streets are empty. The town is dead, the town is dead, the town is dead.

And today the men who could build like the Maurelans are dead. They are dead, they are dead, they are dead.

## Royalty From All World To Assemble At Garter Ceremony

HON. SIR QUIMBY PENNY

The richest pageant of all the celebrations of the Royal Silver Jubilee will be the ceremony to be held in Windsor Castle on June 17, when 36 members of the Knights of the Garter will come together for the first time in 27 years.

A service to be held in St. George's chapel will be the most colorful event of all the many colorful events to be witnessed in London for the next few months. The knights, many of them monarchs of foreign lands, will wear their picturesque robes of gold and blue, and will be accompanied by their wives and children.

The procession will be headed by the King and Queen in the chariot drawn by four white horses. The knights will follow in their own chariots, and the ceremony will be a most magnificent sight.

## CASH FOR OLD GOLD

Millions of dollars are being offered for old gold. The government is offering a large sum of money for old gold, and the public is responding with enthusiasm.

## THIS CURIOUS WORLD

—By William Ferguson

THE Redwood trees, of California, are confined in the coast range and flourish very close to sea level. They do not derive their moisture from the summer rains, but from fog, which blows in from the ocean. Where the fogs end, the Redwoods end.

NEXT: How fast can the cheetah, of Africa, run?

## FRECKLES

—By Blosser

## OTTO HONK

OH, THERE YA ARE! BEEN LOOKIN' ALL OVER FER YA! THOUGHT YOU WERE GONNA JOIN EMMY AN' ME AND THAT NEW NEIGHBORS GAL IN THE EASTER PARADE WHADDA YA DOIN' WAY OUT HERE?

AW, I SPENT ALL MY MONEY FOR CLOTHES, SO I HADDA PICK THE GIRL SOME FLOWERS INSTEAD OF BUYIN' HER SOME

WELL, YOU GOT A DANDY BUNCH. THERE, SO COME ON! LET'S GO!

AW, THE PARADE IS OFF, FER ME! I GOT THE FLOWERS ALL RIGHT—

BUT THEY WERE ON THE OTHER SIDE OF A BARBED WIRE FENCE!

## OUT OUR WAY

CIGARETS! SO HE'S GOING IN FOR THAT ALREADY, IS HE? WE'LL HAVE THIS OUT RIGHT NOW!

GOSH, WHAT A MESS. SHE'LL WATCH ME LIKE A HAWK, AFTER THIS.

BOY—IF SHE HASN'T LOOKED IN THAT PACKAGE, I HAVE A CHANCE. SHE PROBABLY JUST LOOKED AT TH NAME ON TH' PACKAGE AN' SEZ—HAW! SMOKIN'!

IT'S FUN TO PUT POISONOUS SPIDERS IN A BOTTLE AN' WATCH 'EM FIGHT, SO WHEN YOU KETCH ONE, YOU CAN'T CARRY 'EM AROUND IN YOUR POCKETS. SO YOU GOT TO HAVE SOMETHIN' TO PUT 'EM IN. SO WHATS BETTER THAN A CIGARET PACKAGE?

## The Willets

SO THAT'S WHERE HIS MONEY GOES. FOR CIGARETS! OH, WILLIS!

I CAN'T LIE TO HER—I WON'T DO THAT—AND I CAN'T ADMIT NOTHIN. I'D NEVER LIVE IT DOWN WITH HER.

THERE'S ONLY ONE WAY TO FIND OUT. ANYWAY, I FEEL BETTER ABOUT IT.

GET THAT THING OUT OF HERE! GET IT OUT! QUICK!

WITH TH' GREATEST OF PLEASURE.

## By Williams

GOOD NIGHT! I GOTTA HAVE TIME TO THINK.

WILLIS! COME HERE.

SAY, YOUNG MAN, WHAT DO YOU CALL THIS IN YOUR PANTS POCKET?

OH, THAT? WHY GOSH I SHOULDN'T OF LEFT THAT AROUND SO CARELESS. IT'S DANGEROUS.

ROBERT BRUCE AIN'T TH' ONLY GUY WHO WAS SAVED BY A SPIDER.

Ask the Junior Members of Any Family About

## Little Orphan Annie — By Harold Gray

EDMONTON, ALBERTA, April 20, 1935.

## THIS CURIOUS WORLD

**ZEBRAS** ARE PECULIAR TO AFRICA, AND ARE FOUND ON NO OTHER CONTINENT.

THEY CONGREGATE IN HERDS ON THE AFRICAN PLAINS... OFTEN IN COMPANY WITH OSTRICHES... WHICH, BECAUSE OF THEIR LONG NECKS, MAKE EXCELLENT LOOKOUTS.

BREEDING EXPERIMENTS SHOW THAT THE ZEBRA IS NOT A DARK ANIMAL WITH LIGHT STRIPES, BUT A LIGHT ANIMAL WITH DARK STRIPES.

ZEBRA MEAT HOLDS A PROMINENT PLACE ON THE LION'S BILL-OF-FARE. IN DAYLIGHT, A ZEBRA SHOWS LITTLE FEAR OF A PROWLING LION, BUT AT NIGHT, EVEN THE FAINT SCENT OF ONE THROWS THE GRAZING ZEBRA HERD INTO PANIC.

THE CURIOUS STRIPING OF THE ZEBRA CAUSES IT TO BLEND WITH THE BACKGROUND, THUS RENDERING IT MORE INCONSPICUOUS AT A DISTANCE, THAN IF IT WERE A SOLID COLOR.

ATTEMPTS TO DOMESTICATE THE ZEBRA HAVE MET WITH VARYING SUCCESS.

A ST. LOUIS DAIRY USES A TEAM OF ZEBRAS ON ITS MILK ROUTE.

THE MARKINGS OF THE ZEBRA ARE NOT ALTOGETHER PROTECTIVE. NATIVES VALUE THE SKIN FOR ITS STRIKING DESIGNS.

## FRECKLES AND HIS FRIENDS

By Blosser

OSCAR, I WANT YOU TO GO TO THE BUTCHERS AND GET ME TWO RABBITS AND SOME LINK SAUSAGE!

SURE, MOM!!

ARE YA IN ANY SPECIAL HURRY FOR IT?

NO! JUST SO I GET IT IN TIME TO COOK THE RABBITS FOR SUPPER TONIGHT! THE SAUSAGE IS FOR BREAKFAST!!

NOW PLAYING SEE ALPHONZO HIS SLEIGHT OF HAND TRICKS WILL AMAZE YOU!

LET'S GO IN AND SEE IF HE CAN AMAZE US! POP GAVE ME TWO PASSES YESTERDAY!

AW, I KNOW HOW THAT'S DONE! WITH MIRRORS, I BET!

SHE HAS A TUBE HIDDEN AROUND HER WAIST! HE PUTS THAT RUBBER DAGGER IN ONE END OF THE TUBE, AND IT LOOKS AS IF IT GOES CLEAR THROUGH!

PHOOEY!

WILL THE SKEPTICAL YOUNG MAN IN THE FRONT ROW PLEASE STEP UP ON THE STAGE?

SURE!

ALLA GAZABA GA ZAM!!

OUT OF MY COAT ???

PRESTO! AND BEHOLD!!

THERE'S ONLY ONE THING I WANNA KNOW—WAS I IN HERE THIS AFTERNOON, OR WASN'T I?

“Out

on the open range with the real “drawn from the woods” buckaroos. In the machine shop among the boys with the overalls and lunch pails. Just a cross section of life taken from

Our

daily lives. A human interest picture of the family at home. It might be your house or mine. You'll get the subtle humor in every cartoon of The Bulletin's daily feature, “Out Our

Way”
